

Amendments to the Claims:

The following Listing of Claims will replace all prior versions of claims in the application:

1-9. (Canceled)

10. (Canceled)

11. (Currently Amended) A double-sided pressure-sensitive adhesive sheet according to claim **21** [[10]], wherein said first black layer and second black layer are black printed layers formed on each side of the flexible base layer.

12. (Canceled)

13. (Currently Amended) A double-sided pressure-sensitive adhesive sheet according to claim **21** [[10]], wherein said laminate further comprises a reflective layer **situated between the second black layer and the second pressure-sensitive adhesive layer.**

14. (Previously Presented) A double-sided pressure-sensitive adhesive sheet according to claim 13, wherein said reflective layer is a metal layer.

15. (Previously Presented) A double-sided pressure-sensitive adhesive sheet according to claim 13, wherein said reflective layer is a white film.

16. (Previously Presented) A double-sided pressure-sensitive adhesive sheet according to claim 13, wherein said reflective layer is a white printed layer.

17-20. (Canceled)

21. (New) A double-sided pressure-sensitive sheet comprising, in the following order, a first pressure-sensitive adhesive layer, a first black layer, a flexible base layer, a second black layer, and a second pressure-sensitive adhesive layer, wherein said first pressure-sensitive adhesive

layer and second pressure-sensitive adhesive layer are the outermost layers on either side of the double-sided pressure-sensitive sheet, and wherein the thickness of the double-sided pressure-sensitive sheet is no greater than 60 μm .

22. (New) A double-sided pressure-sensitive sheet comprising, in the following order, a first pressure-sensitive adhesive layer, a first flexible base layer, a first black layer, a lamination layer, a second black layer, a second flexible base layer, and a second pressure-sensitive adhesive layer, wherein said first pressure-sensitive adhesive layer and said second pressure-sensitive adhesive layer are the outermost layers on either side of the double-sided pressure-sensitive sheet, and wherein the thickness of the double-sided pressure-sensitive sheet is no greater than 60 μm .

23. (New) A double-sided pressure-sensitive adhesive sheet according to claim 22, wherein said double-sided pressure-sensitive sheet further comprises a reflective layer situated between the second black layer and the second pressure-sensitive adhesive layer.

24. (New) A double-sided pressure-sensitive adhesive sheet according to claim 23, wherein said reflective layer is a metal layer.

25. (New) A double-sided pressure-sensitive adhesive sheet according to claim 23, wherein said reflective layer is a white film.

26. (New) A double-sided pressure-sensitive adhesive sheet according to claim 23, wherein said reflective layer is a white printed layer.
